Each of the items listed in the chart are defined in the Library of Definitions in the Streamlined Sales Tax Agreement adopted November 12, 2002, or adopted by the Implementing States subsequent to November 12, 2002. Refer to Appendix C of the Streamlined Sales Tax Agreement for each definition.

Place an "X" in the appropriate column under the heading "Treatment of definition" to indicate the treatment of each definition in your state. If a definition does not apply to your state, enter "NA" in the first column under the heading "Treatment of definition." In accordance with the agreement, your state must adopt the definitions in the Library of Definitions that apply to your state without qualifications except for those allowed by the agreement. For this reason, do not enter any comments or qualifications in the two columns under the heading "Treatment of definition". If your state has adopted a definition in the Library of Definitions with a qualification, do not place an "X" in either column under the heading "Treatment of definition" but include a comment in the "Reference" column explaining the qualification. Enter the applicable statute/rule cite in the "Reference" column.

Sellers and certified service providers are relieved from tax liability to the member state and its local jurisdictions for having charged and collected the incorrect amount of sales and use tax resulting from the seller or certified service provider relying on erroneous data provided by the member state relative to treatment of the terms defined in the Library of Definitions.
